

Social Networking Technologies: What's Next?

February 10, 2004

EVENT DESCRIPTION

The explosive rise of social network platforms is one of the most discussed technology trends of the year. As leading-edge companies position themselves to capitalize on the power of these rapidly evolving technologies to help individuals tap relationship networks and improve the efficiency of everything from dating to sales -- they are stirring up media excitement, entrepreneurial zeal, patent battles and millions of dollars in private investments.

This invitation-only executive event will take a critical look at this exciting and evolving sector of the market. A panel of leading CEO's who are on the front lines of the social networking space will share their unique insights and answer the hard questions as we examine the issues and opportunities that lie ahead in this sector.
